B N College, Dhubri, Assam

## B N College: At a glance

B N College, a premier institution of lower Assam was established in 1946. It has been imparting higher education to the youths coming from rural, urban and semi-urban areas creating a homogeneous atmosphere of heterogeneous elements where the students have been able to attain academic, moral as well as spiritual development. The green campus with solar power plant, modern digital classrooms, laboratories, digital central library, computer centers, indoor and outdoor game facilities, etc provide a fascinating atmosphere for teaching-learning process. At present there are 21 departments under Arts and Science stream. College also offers BCA, BVOC (IT) and PG in Assamese and Chemistry.

## About the programme

Swami Vivekananda explained the nature of education as a means of self actualization and realization to acquire one's innate capacities. He said that the primary aim of education is to yield the best, that inherently remains in every individual. Swamiji had sought introspection from the mind that would enable to establish constitutional qualities and one's own faith in them. Swamiji had regarded education as a tool for promoting self-reliance and universal brotherhood. His focus was always on understanding and development of inborn abilities of a learner. Hence, Swami Vivekananda's philosophy of education gives us a principle of learner-centric education which would kindle a spark, that will ignite the mind and heart. This spark will lead to a beautiful revolution of a metamorphosed and an even healthy social architecture.

We are hopeful, that the lecture will radiate an array of light to enlighten the students, faculty members and other stakeholders to sketch and gauge a reflection of Swami Vivekananda's insights of Education, which is the real need of this era. Here, and everywhere.
